## Florida Cytology Combo-21

### Understanding the Course Formats:

#### Online Complete

With the Online Complete format, the purchaser receives the reading material in an online document – typically a PDF file – and an online quiz. One copy of the document can be printed out or can be saved to a flash drive to be shared with coworkers or saved for future reference. Remember to save a copy of the document **before** completing the quiz.

#### Online Quiz Only

With the Online Quiz Only format, the purchaser only receives access to the online quiz. You must have access to the reading material, either through a coworker, your employer, or you can purchase the 'printed book only' option to pair with the online quiz. Most people print out a copy of the quiz & work offline, before entering their answers in the live quiz.

#### Printed Book Only

Printed Books are **no longer available** for this FL Cyto. Combo Course. \*

This course consists of an online PDF file. Once purchased, you are entitled to print 1 copy of each PDF file if you prefer to have a printed copy.

### Common Florida Cyto Combo Course Questions:

**QUESTION:** Do you report to Florida's CE Broker?

**ANSWER:** Yes. We report to CE Broker immediately after course completion for online courses and after manual entry for Answer Sheets, provided that your license # is in your profile **at the time of course completion**.

**QUESTION:** Why don't you mail Certificates of Completion any longer?

**ANSWER:** There are several reasons, including: ongoing mail delivery problems, timely reporting to CE Broker, and online access to your profile allows you to print Certificates as needed.

**QUESTION:** \* Why don't you offer the Florida Cytology Combo in the Printed Book format?

**ANSWER:** Two reasons: 1.) Depending on the course there may be color images, which are important to view in color or may have references to colors in the image. 2.) We had very few requests for printed books, so it was not cost effective to have them printed any longer.

**QUESTION:** How can we set up a new Group or Sub-Group for our Lab?

**ANSWER:** Visit: <https://www.4CEUINC.com/NewGroup.pdf>
